## Lab 3 – Project Management Best Practice

Company: Asus

- Began as a conversation in a coffee shop in Taipei.
- Few ambitious engineers shared a dream to create small company.

- Develop a unique sub-brand called Republic of Gamers (ROG), a division dedicated to creating the world's best gaming gear and revolutionary Eee PC.

- Owns three independent companies: Asus, Pegatron and Unihan Corporation.
- Build and design a lot of smart technologies.

- Planning to build and design motherboards and high-quality personal computers, monitors, graphic cards, routers, and other technology

- Apply and getting partnership with Intel.
- Perform quality control to design new motherboards and develop an advanced product in the future.
- Provide training to educate employees about new skills to enhance productivity.
